INVITATION

Greetings from Haffkine Institute, Mumbai.

It gives us great pleasure to invite you for XIth Annual Conference of Indian Academy of Vaccinology and Immunobiology (IAVIB) and National Vaccinology Symposium (VACSYM 2011) to be held on 5th & 6th March 2011. This National Conference and Symposium is aimed to bring together the scientists, professionals and vaccine manufacturers on a common platform, for scientific deliberations and interactions in order to develop an effective liaison between institutions and the industry. This symposium will talk about the future of vaccines. Speakers representing the government, pharmaceutical industry and academia will discuss challenges as well as opportunities related to the research and development of vaccines. It is hoped that your active participation will enrich the deliberations so as to meet the challenges of Indian vaccine industry.

(Dr. Abhay Chowdhary)

Organising Secretary and
Organising Team

Indian Academy of Vaccinology & Immunobiology (IAVIB)

The IAVIB was started in 1990 to bring together all the Scientists, Researchers and Academicians from Industry, Universities and Public Sector working on all aspects of Vaccinology and Immunobiology on a single platform for the common good of this very important branch of Science and Technology. The idea was first mooted during a conference in Kasauli and the response was overwhelming. The Academy was born. Dr.S.N.Saxena was elected the first President of IAVI and Dr. M. B. Borkar was elected as Gen. Secretary. This academy actively conducts the conferences on various aspects of vaccinology and immunobiology.

Scientific programme

The scientific programme will run from Saturday 5th March to Sunday 6th March 2011 with 7 sessions. It will include Presidential Oration, keynote addresses, Invited and lead papers. Oral and Poster presentations of technical papers on "Vaccinology" will also be presented.

Papers are invited on the following broad areas.

1. Overview of vaccine development: broad societal & scientific issues.
2. The challenges to immunization practice by increasing number of parenteral vaccines.
3. Promoting vaccine discovery: a vision for the future.
4. Immunomodulators and adjuvants.
5. Evaluating the performance of new vaccines:
Efficacy vs. Effectiveness.

Target audience

This Conference focuses on latest information relating to present and future immunization issues. It is designed for pediatricians, family physicians, nurses and Public Health Professionals, advocates and researchers in public health. Medical Council CME Credits will be awarded to Participants.

Who should attend

Bio Pharmaceutical manufacturers, Large / SME Biotechs, Government / Regulatory bodies, Academia, Research Institutes, Contract Research Organizations, Contract manufacture Organizations, Equipment Manufacturers & Technology Providers, Consultants, students of Biomedical and Biotechnology courses etc.

Call for papers/ abstracts

Writing an abstract is an important way for you to communicate your scientific research or clinical practice with your peers and colleagues. The abstract should not exceed 250 words and must be computer typed in MS-word, Times Roman font with font size 12. The abstract should contain a title, names of authors along with affiliations and keywords of the research. The main text of the abstract must contain Introduction, Aims & Objectives, Methodology, Results, Discussion and Conclusion of work. The presenting author must be indicated by his/her name underlined with full mailing address. The abstract should be submitted electronically to vacsym@gmail.com. Papers screened by panel of experts for oral or poster presentation would be informed subsequently by email. Best papers presented in each category will be receive awards.

Last date for submitting the abstract is 15th February, 2011.
